

**Amber Smith  
(Perry County)**

Amber worked for Vision Perry on the Beautification Project and states it is her very first job. "It's not just about me...it is about the whole community. We're trying to improve our community through the beauty of art. We've created a sculpture garden that also includes many flowers and we're in the process of creating an outdoor theater area. Vision Perry is completely original!"

## Joshua Lankford (Marshall County)

Joshua is employed with the Marshall County Veteran's Services Office.

He will return to active duty in Afghanistan soon.

"People think that it is easy for veterans to get a job, but it isn't. I looked for a long time and was getting really discouraged until I walked into the career center here in Lewisburg. They suggested that I sign up for the "Hire YOUth" Summer Youth Program. I've really enjoyed working here. I hope that I can work here part-time once I return from Afghanistan and start college."

## Kaitlyn Hensley (Lewis County)

Kaitlyn is a senior at Lewis County High School and was employed by Greenview Animal Hospital in Hohenwald.

After graduation, she would like to attend Columbia State Community College. She either wants to major in Radiology or get her under-grad for Vet School. She stated that working in the vet clinic this summer has definitely furthered her interest in veterinary. "This has been a really great learning experience for me."

## Logan Kingston (Perry County)

Logan worked for Vision Perry in Video Production. He states, I have learned so much this summer with this job; video production, editing, team work, communications and other skills that I can use in my next job. It has also helped me be able to pay bills, buy equipment and get things I needed for starting school in the fall."
